Track 11: General IS Topics and Breakthrough Ideas

Track Chairs

Emma Coleman*
University of the Witwatersrand, South Africa

Brian Fitzgerald
University of Limerick, Ireland

Jan Kroeze
UNISA, South Africa

Cathy Urquhart
Manchester Metropolitan University, UK

*Corresponding track chair: emma.coleman@wits.ac.za

Description

The General IS and Breakthrough Ideas track is intended for high quality papers on topics that do not have a specific fit with one of the other conference tracks. The track invites unique and novel papers and gives an additional degree of freedom to the conference’s theme. All research methods and paradigms are equally encouraged, and all paper types including conceptual, theoretical, methodological and philosophical papers will be considered for inclusion. Please check the detailed descriptions of other tracks before submitting your paper to this track to ensure a good fit with your submission.

Associate Editors
