8th ILAIS Event  
June 8, 2014  
Co-Chairs: Phillip Ein-Dor, Dizza Beimel, Dalit Levy, Ruti Gafni, Dov Teeni

Call for Papers

The meeting of ILAIS members will be held this year in accordance with ECIS2014, in the form of a pre-conference workshop on Sunday, June 8, 2014 from 13:30-18:00, at the Academic College of Tel-Aviv Yaffo. The theme of this meeting is “Teaching IS: Lessons Learned from Israel”. In addition to bringing together Israeli scholars, the purpose is to draw the attention of ECIS international participants to current threads of teaching IS in Israel and to provide a forum for educational conversation and academic collaboration.

The program will include parallel sessions of short presentations (20 min) for which we seek contributions from scholars who focus on the above theme. The contribution can be in the form of a research paper, a teaching case, or an educational idea worth spreading. Consistent with the ECIS2014 conference theme, Digital Work, Digital Life, we welcome submissions that shed light on the ways in which mobile, new-media, social, organizational, and educational technologies are practiced in Israeli IS programs and courses.

Faculty members in the IS field and those who teach IS more broadly are encouraged to submit a one-page proposal, in English, in the ECIS paper format by April 8, 2014 to ILAIS2014event@gmail.com. Authors must grant ILAIS the right to publish the proposal online prior to the meeting, but retain all other copyrights. This arrangement allows you to publish the complete version elsewhere.

Important Dates
Submission deadline: April 8, 2014  
Notification to authors: May 8, 2014  
Conference date: June 8, 2014

Prof. Dov Teeni, Tel-Aviv University

The Israel Association for Information Systems (ILAIS) was founded in 2005 as the Israeli chapter of the Association for Information Systems (AIS). The goal of ILAIS is to promote the exchange of ideas, experiences and knowledge among IS scholars and professionals engaged in IS development, management and use.
